MONEY MARKET. Monday, June 14-6 P. M.

There was quite a speculative excitement in the stock narket, this morning, and all the fancies were exceed-ngly bueyant. The bulk of the transactions was for cash. Aj the first board, Delaware and Hudson advanced 21/2 per cent; Morris Canal, 1/4; Canton Company, 1/4; New Jersey Zinc, &; Eric Railroad, &; Harlem, &; Long Island, %; Norwich and Worcester, 1; Stonington, %; Reading Railroad, 1/4; Hudson Railroad, 1/4; New Haven Railroad, ¼; Erie Bends, 1871, ½; do. 1882, ¼; Farmers Loan, 2. At the second board, there was a slight reaction, and prices receded a fraction. Eric Convertible Bonds were in demand, and the sales were large improving from the opening. Delaware and Hudson has advance d more rapidly than any other stock on the list. When the last dividend was made, the stock was selling at 117, and the improvement since has been with the dividend, tenper cent. Morris Canal has been in better demand istely, doubtless owing to the large receipts. The tolls this year, up to the 9th of June, show an increase of \$23,576 61, compared with those for the same period last year. The New Jersey Zine Company has been quite firm for some days past, and outsiders are purchasing for investment, in view of large dividends. The receipts of the company since the 1st of January last have been \$78,573 93, from the sales of paint alone, and the increase from mouth to mouth is very great. In February, the sales were only \$4,166.31, while in May they were \$36,000. The company feel confident that from the sales of paint alone, a dividend of twenty-five per cent per annum can be declared. Nothing has yet been officially announced relative to the July dividend on the stock of the Eric Railroad Company. It is the prevailing impression that it will be four per cent. The doubt existing has not operated unfavorably on the market value of the stock Harlem was active to day, at an advance. There appears to be a strong under current in this stock, which the bulls cannot contend against successfully. It is one of the most promising railroad stocks on the list, and withal the chespest. Norwich and Worcester has nearly recovered from the effects of the unfavorable report of earnings for May. It has advanced about two per cent from the lowest point. Hudson River Railroad was freely offered today, and as freely taken, at better prices, before the clos Reading Railroad is steadily moving upward notwith standing the large amount of stock in the market. It in strong hands, and prices will without doubt be ma The receipts at the office of the Assistant Treasurer

Chis pert, to day, amounted to \$90.225; payment \$30.660 17—balance, 4.092,114 65.

The Comptroller of the State of New York has issue

The Comptroller of the State of New York has issue the following notice:

COMPTROLLER'S OFFICE, Albany, June 1, 1852.

Notice is hereby given to the holders of Comptroller bends, issued in 1845, for the sum of four hundred an sixty-seven thousand dollars (\$467 000) pursuant to charter 114, of the laws of 1842, for loans from individual and which are payable on the first day of July next, the in consequence of the omission of the Legislature t make the necessary appropriation to pay the same, the Comptroller will continue to pay the interest, at six pecula, on said bonds, as it becomes due, until provision made for the payment of the principal.

The Plantaris Bank of Charleston has declared a second The Pianter's Bank of Charleston has declared a sem

annual dividend of six per cent. The Cleveland ar Pittsburg Railroad Company have declared a dividend eight per cent from carnings up to the 1st of Januar, last, and six per cent for the six months ending the fir of July next.

were brought down over the Baltimore and Ohio Railroad last week, from the Cumberland regions, of which 1,10 tons were from the Frostburg Company, 1,522 from th Borden Company, 568 from the Alleghany Company, an 435 from the Parker Vein Company We have no report from the Cumberland Company.

A contract for building the Terre Haute and Alto. Illinois) Railroad has been entered into by Messrs. Will Pheips, Wm. Mattoon, and James Barnes, of Springfield Mass. This road extends 175 miles, entirely across th southern part of Illinois. These gentlemen have con tracted to build the read, furnish the iron, build th depots, cars, locomotives, &c., putting the entire road is running order within three years, for the round sum of three millions of dollars. The route is comparatively an three millions of dollars. The route is comparatively an casy one, and it is believed that the road will be completed within two years.

The following banks, which show an aggregate capital of \$2,777.000, have been organized under the free banking aw of the State of Illinois, and certificates filed and in the state of Illinois, and certificates filed and in the state of Illinois.

law of the State of Illinois, and certificates filed and i he Auditor's office, up to the 24th of May:-

Merchante' and Mechanics' Bank of Chicago, Chicago capital stock \$100 000.

The Bank of Peru, Peru; capital stock \$100,000.

The Himois River Bank of Taylor and Coffing, Peru capital stock \$250,000.

Marine Bank of Chicago, Chicago; capital stock \$50.

90. Commercial Bank, Chicago; capital stock \$52,000 Clark's Exchange Bank, Springfield; capital stock Geneva Bank, Geneva, Kane county; capital stoc \$100,000. Farmers' and Mechanics' Bank of Quincy, Quincy; capital stock \$500,000.

Stephenson County Bank, Freeport; capital stock \$50,

The following gentlemen were yesterday unanimous elected directors of the Hudson River Railroad Compan for the year commencing June 14, 1852 :—Edwin D. Mo gan, John David Wolte. Edward Jones, Moses H. Gri nell, Drake Mills Joseph Tuckerman, J. Boorman John ston, * Henry Young *; Gouverneur Kemble, of Cold Spring James Hooker, of Ponghkeepsie; Erastus Corning, of A

bany; John Wilkinson,* of Syracuse; James C. Forsyth of Kingston. (* New members.) And the following ger tlemen were elected inspectors of the next election :-James Boorman, Japhet Bishop, William C. Redfield At a subsequent meeting of the board, the following offi cers were re-appointed :- Edwin D. Morgan, President Edward Jones, Vice President; Thomas M. North, Secre tary and Attorney.

The receipts of the Macon and Western Railroad Com-

pany during the month of May, were \$18.257 96, agains \$12,672 92 for the corresponding month last year---show ing an increase in the month, this year, of \$5,585 04, equa to about forty five per cent.

The Tioga Railroad Company are in the market for the sale of \$300,000 of its first mortgage seven per cent bonds, and proposals will be received at the office of S. S. Robbins & Son. No. 52 Wall street, until Wednesday, the 16th of June, at 3 P. M., for any part of the above issue The bonds will be issued in sums of \$1,000 each, interest payable semi-annually in this city, by coupons and the principal reedeemable in 1872. This is one of the most important railroads in Pennsylvania, and the security offered to purchasers of the company's bonds is ample. The road is intimately connected with the coal business of the Biossburg coal region, and its traffic is therefore principally confined to an article of universal consumption The road extends north from the rich bituminous coa mines near Blossburg, Tioga county, Pennsylvania. to th New York State line, near Lawrenceville, a distance of twenty-six miles, and at that point connects with the Corning Railroad, of fourteen miles in length, forming a con tinuous road, terminating at the town of Corning, situate on the New York and Erie, and Buffalo, Corning, and New York railroads, and Chemung Canal. The Corning Railroad is now being re la d with heavy iron H rails, and has been lessed for a period of ten years to the Tioga Railroad Company, so that the latter named company wil operate and work the entire line of railroad between the coal mines, Blossburg and Corning. The track of the Tioga Railroad is now laid with a flat bar rail, and its original cost was about \$440,000. The company have made s contract with responsible parties for relaying the track upon the New York and Erie, or six feet guage, and placing thereon very superior heavy iron H rails. This road the entire completion of which is guarantied on or before the lath of August next, will, when finished, equal, in the permanency of its structurg, any railroad in the United States. For the purpose of meeting the expenses of relaying the road, and its equipment the company have, hader the most ample authority from the Legislature of Pennsylvania, issued seven per cent coupon bonds to the amount of \$350,000, payable, principal and interest, in the city of New York, convertible into stock, and secured by a mortgage, in trust, to Theodore Dehon, Alfred S. Fraser, and Watts Sherman, Esqs., of the city of New York, which mortgage is the first and only lien upon the road, Its furniture, and franchise.

of certain articles experted from this port during the week ending the Lith instance distinguishing the destination and extent of shipments to each place.

The entexed statement exhibits the quantity and value

It appears by this that the aggregate for the week was not large, but it shows some curious movements in shipments. The effect of the discovery of gold in Australia, upon our commerce, is already visible. The exports to that country from this port, last week, amounted to nearly thirty-five thousand deliars; and as several vessels are up for Pert Philip and Sidney, the aggregate within the next thirty days will be something important. In this way our commerce extends and ports in the Pacific with which we have hitherto had no trade, will soon become great mar-FROM—Hospital, Belleven, 9; Penisantary, Black wells falled, 1; Lonsting like California in this country, but it will form a part of the round voyage made by our clipper ships to San Francisco and China. Shipments to other parts of the waith last week comprise about the usual variety.

There was a partity active movement in preadstaffs, and the aggregate value move generally distributed.

There have been rumors affinit relative to the solvency of the New Pet Safety Fund liank of Kantucky, it was reported by beinguigh that its paper was not taken by the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the part of the reported by beinguigh that its paper was not taken by the partitions of operator. These operators of the reported by beinguigh that its paper was not taken by the partitions of operators.

FROM Period Period Languagh Light Saland, 1; Clay Hospital, Its Colored Been the value and the part of t kets for our products. Australia will not, of course, be any-San Francisco and China. Shipments to other parts of the world last week comprise about the usual variety.

centucky banks were. We know nothing about the in-titution, any further than than what we learn from papers published in its immediate neighborhood, and therefore give their statements for what they are worth-TheCincinnati Enquirer gives the following account of its

therefore give their statements for what they are worthThe Cincinnati Enquirer gives the following account of its
position and condition:

Newrort Sapert Fund Bank of Kentucky.

The president of this bank is, by the charter, required
to deposit, with the Auditor of State, State bonds and
mortgages to an amount not less than fifty thousand
dollars, and on the deposit of which, the Auditor registers
and countersigns to a corresponding amount notes of
the denomination of \$5 and upward, which are delivered to the bank for circulation. The 1's, 2's, and
's's are, like most of the Kentucky bank notes, only
signed by the cashier. It is made the duty of the
president and directors to transmit to the auditor, during the first week in January in each year, an accurate
and just statement of the condition of said bank, giving the amount of stock paid in, the amount not paid
in, the value of the real estate belonging to said bank, the
amount of debts due to and from the bank, the amount of
deposits, the amount of bills in circulation of each denomination
issued by said bank, and the amount of deposits,
the amount of bills in circulation of each denomination
issued by said bank, and the amount of gold and silver
and other bank bills on hand, which is to be published in
the newspapers at Newport and Frankfort. The Chancellor, upon the application of any creditor or stockholder
whose debt amounts to one thousand dollars, may appoint
commissioners to examine the condition of said bank, and
make such order as he may deem just and proper.

Upon the failure of the bank to redeem any of its bills
in gold or silver, the Auditor is directed to sell the State
bonds and bonds and mortgages, and redeem the notes.
The Legislature reserves the right to investigate the situation and affairs of the bank from time to time; and the
General Court has the right to try the forfeiture of the
charter for a violation of any of its provisions. The notes
off the bank are made receivable in all payments to the
State, and for county taxes.

ADTERTISEMENTS BENEWED EVERY DAY.

Totals...1,842,551 157,084 \$48,056,540 \$7,161,630 Thoroad forms a tink in the great chain of wide gauge works extending from Niagara Falls to the City of New York. It also connects with the Central line from Albany to Buffalo.—with the road from Rochester, through Lockport to the Falls—with the Williamsport road through Pennsylvania at Elmira, and with Dunkirk and the State Line and Lake Shore Roads via the Eric from Elmira. There is little doubt that the broad guage chain, of which this road forms a part, will receive a full share of western freight and travel. Freight ears laden at Niegara Falls will be sent direct to New York, without breaking bulk, as must necessarily be the case with the Buffalo and Albany road.

The security of the bonds may be judged from the cost, present income, and future prospects of the work. The entire cost with full equipments as proposed under this advertisement, will be \$550,000, of which the first mortage will constitute \$300,000, and the second \$200,000, and the share subscriptions \$450,000. Of the last, \$422,000 has been paid in. Founding our estimate upon the monthly receipts for the past six months, the revenue derived from the yoar's business will not fall short of \$100,000, from which forty per cent being deducted for running expenses, leaves \$60,000, being an interest of more of than seven per cent upon the present cost of the road. The total bonded indebtedness of the cond. The total bonded indebtedness of the cond only on the issuing of the second mortage bonds, will be received the the theory interest is \$55,000, to which the yearly interest is \$55,000, to that, even the most blue, which the very juterest is \$55,000, to that, even the property even then done will be purefully paid.

With the road properly equipped, and with one or more of the rections of the Canadaivan and Nixorae Falls were and the recommendation of the condition of the rections of the Canadaivan and Nixorae Falls will be not conditions of the conditions of the conditions of the conditions of the con

greater during the next year than during the present, there can be no doubt that the interest on the bonds will be punctually paid.

With the road properly equipped, and with one or more of the sections of the Canandaigus and Ningara Falls Raad opened, the directors are confident that the receipts of this road will be nearly, if not quite, doubled. The fact that the mere local receipts for the first vear, with all its disadvantages, are sufficient to maintain the road is considered highly succurating. The length of this road being ferty seron miles, the mortgage debt will be about \$11,000 per mile, less than one half the cost of construction, which makes this loan equally secure with the most unquestioned bond and mortgage. To secure the payment of the bonds a mortgage has been executed in favor of Shepherd Knaps and Hicam Reichum, Equires, Trustees, on all the lands and axtures of the company, and also on all its income, issues and receipts; so that these bonds come under the denomination of both Income and second mortgage bonds.

Leaving a surplus for non-preferred stockholders... \$32,976
By reference to previous statements it will be cheerved
that property costing when relaid and equipped, \$790,000
is mortgaged for \$530,000, and that the estimated net earn
ing amount to \$61,375, a sum largely exceeding the 7 per
cent agreed to be paid on the bonds issued. Referring to
sectione 7 and 9 of the act of the Legislature of Ponnsylvanie
passed April 6, 1850, full authority is given to issue these
bonds, and create a mortgage to secure them, and a sale of
them is made as valid below, as at, or above par.

Proposals to be directed as above, and to stipulate for
cash payment on the 17th of June, when the bonds will be
delivered. The accrued interest, from May ist to the 17th
June, goes with the bond.
